

BIOGRAPHY AND ARTIST STATEMENT

JANIE EDWARDS

BIOGRAPHY: Now that I am retired, I have an art studio in our home. I enjoy painting nearly every day and my choice of media is watercolor. I choose my subjects from people I know, our large backyard garden and the many wonders of nature. Although I had several art classes in high school and college, I did not take painting seriously until later in life. Now I find the creative impulse unstoppable.

ARTIST STATEMENT: We all need beauty in our lives. Paying attention to the world around us alerts me to design, color, pattern and the lines of nature.
